

The Cherished Teddies Club has identified three large U.S. Cherished Teddies retailers, who can renew UK and Canada membears into the U.S. Cherished Teddies Club.

For all those membears who are charter members, we've determined that it will be possible for you to retain your charter status in the US Club.

All three retailers below carry a wide variety of Cherished Teddies collectibles and have the capability to ship product internationally to membears. It will be your responsibility to proactively contact them, in order to renew your membership. This will not happen automatically and you must be the one to initiate this action, in order for a renewal to occur.

Here is the contact information for the three large U.S. participating Cherished Teddies retailers:
